• PROFESSIONAL SUMMARY

Detail-driven Senior Quality Assurance Tester & Software Engineer with **12+ years** of technology experience, including over **5 years specializing in Software Quality Assurance and Test Automation**. Proven track record across fintech ecosystems, mobile & web applications, payment gateways, booking engines, loyalty systems, and RESTful APIs. Expertise in developing comprehensive test cases, defect triaging, and automating regression suites using Playwright and Katalon Studio. Strong multidisciplinary background in full-stack web development and systems engineering ensures seamless root-cause analysis and productive pairing with developer squads.

• CORE COMPETENCIES & TECHNICAL SKILLS

QA Methodologies:	Manual Testing, Test Automation, Functional & Regression Testing, End-to-End (E2E), Integration Testing, System Testing, Black Box, User Acceptance Testing (UAT), Test Strategy, Test Plan Design.
Automation & Tools:	Playwright, Katalon Studio, Selenium WebDriver, Postman (API Testing), Qase.io, GitLab CI/CD, GitHub, Jira, Defect Reporting & Triage.
Languages & DB:	JavaScript, TypeScript, PHP (CodeIgniter, Laravel), Java, JSP, SQL (MySQL, PostgreSQL), HTML5, CSS3, Shell / Linux.
Domains & Ecosystems:	Fintech (StarWALLET, Payment Gateways), Booking Engines, Loyalty & Rewards Systems, OTP & Liveness Verification, Web & Mobile Platforms (Android, iOS).

• PROFESSIONAL EXPERIENCE

Senior Quality Assurance Tester — **Starworks Global Pte Ltd**

Sep 2024 — Present

Badung Regency, Bali, Indonesia · Full-time (On-site)

Leading end-to-end quality assurance initiatives and automated regression suites across web and mobile platforms in the StarWORKS ecosystem.

- Direct testing strategies, regression frameworks, and release readiness for multi-tier applications (StarWALLET, StarPoint loyalty, Booking Engine).
- Implement automated test suites using Playwright and Katalon Studio, reducing repetitive manual testing overhead.
- Coordinate closely with software engineering, DevOps, and product management to streamline bug turnaround and sprint QA deliverables.

JavaScript TypeScript Playwright Katalon Studio E2E Automation Test Architecture

QA Tester — **Starworks Global Pte Ltd**

Sep 2021 — Sep 2024

Kerobokan Kelod, Badung, Bali, Indonesia · Full-time

Reviewed and analyzed software specifications across ecosystem products; executed detailed manual and automated test plans.

- Created, maintained, and executed 500+ structured test cases in Qase.io and GitLab across web and native mobile apps.
- Validated critical business flows including payment gateway integrations, affiliate modules, token transfers, and OTP/Liveness checks.
- Performed systematic API verification using Postman, inspecting status codes, payloads, error responses, and database record integrity.

Manual Testing Test Automation Postman REST API Qase.io GitLab SQL

Full Stack Engineer — **PT SEMANGAT DIGITAL INDONESIA**

Jan 2020 — Sep 2021

Bali, Indonesia · Contract

Developed dynamic web applications, architected scalable database schemas, and constructed robust backend RESTful APIs with PHP (CodeIgniter) and TypeScript.

CodeIgniter TypeScript PHP MySQL REST APIs

Information Technology Supervisor — PT Dimata Sora Jayate

Oct 2018 — Jan 2020

Denpasar, Bali, Indonesia · Full-time

Supervised IT operations, server health, system infrastructure, and supported enterprise software solutions across client deployments.

IT Management Systems Architecture Infrastructure Team Leadership

Java Software Engineer — PT Dimata Sora Jayate

Feb 2015 — Oct 2018

Denpasar, Bali, Indonesia · Full-time

Designed and maintained enterprise web applications and business logic modules utilizing Java and JavaServer Pages (JSP) with relational database backends.

Java JavaServer Pages (JSP) SQL Enterprise Software

IT Support Technician — PT Dimata Sora Jayate

Nov 2013 — Jan 2015

Denpasar, Bali, Indonesia · Full-time

Network analysis, client training, hardware/software troubleshooting, Linux server administration, and infrastructure maintenance.

Network Analysis Linux Administration Troubleshooting Technical Training

● **EDUCATION & FEATURED QA PROJECTS**

Bachelor of Computer Systems (S.Kom.)

ITB STIKOM Bali

Computer Systems, Hardware, Architecture & Software

Computer Network Engineering (TKJ)

SMK Negeri 1 Denpasar

Networking, Protocols & System Infrastructure

E2E Regression Test Lab (Playwright)

Automated regression suite validating viewport responsiveness, DOM integrity, dynamic API status polling, and simulated test runs on CI/CD.

Aplikasi Bengkel (Laravel / PHP)

Automotive workshop management and POS system covering inventory management, service records, spare parts tracking, and financial reporting.
